Time:	Item #	Topic:	Details:	Action:
1105	1	Meeting Start		
1110	2	Sub-teams	Person Identification - Have a prototype with Pinocchio implemented (not fully working yet) - Robot moves but won't stand up Gesture recognition - Christo demonstrated progress on gesture recognition subteam - Robot balances itself on Mujoco simulation - Gestures have not implemented to move it yet Sprint 3 role agreement signed by everyone	
1115	3	Client	Demo - Person ID - Gesture recognition Just show progress before the final meeting on week 12 (client on leave weeks 10 and 11)	
1120	4	Auditor	Confirmed for Friday 25th at 11am online Questions - Ask about meeting minutes being deleted accidentally - Are we getting marked for GitHub commit messages - Ask about some members not being shown as contributors on github - How commits are looked at and counted	
1125	5	Mentor	Confirmed for Friday 25th at 9am online Questions - Should we merge all branches together	Lithasa to make agenda for mentor meeting

			- Person ID is doing top half of the robot, and we need the walking policy to keep it standing – will it be an issue (will it crash because we haven't looked into bottom half yet)	
1130	6	To-Do	Some issues already recorded on Github Went over sprint 3 deliverables Include - Dependencies - Issues they can run into - Commit logs - Final code User guide - What hand gestures are registered - Start-up sequence - How to switch between gestures and mimicking	Dhava to look into rl-lab (everyone) - Clean up documentation to what everyone is actually using - Record merging in issues - Clean up the repository
1200	7	Meeting End	Next meeting 30/09/2026
