

Group 21

CITS3200 PROFESSIONAL COMPUTING

MEETING 2 AGENDA

Time: 1pm

Date: 05/08/2026

Venue: EECE 3.13

Tasks	Sub-tasks
Research	• Talk through structure and chosen technologies • Discuss Mujoco • Define scope ○ What assumptions can we assume ○ What 'Refresh rate' should we be doing (30Hz?, 15Hz) ○ What format should the project be delivered as? (1 installable bundle? A Git repository that incorporates the other Git repositories?) • Project acceptance tests ○ How will we know if the project has been successful? • If tell robot -> follow person in black tshirt -> follow at constant distance • Understand gestures from people and react to the gestures
To Do	- Two weeks to do tasks as outlined by client - Finish Sprint 1 deliverables using client feedback
Next Meeting	12/08/2026
