

Minutes of Auditor Meeting 2

25/09/2026

Present: Christo, Lithasa, Dylan, Dhava, Murphy, Terry

Apologies:

Absentees:

Meeting Start: 11:00am

Meeting End: 11:40am

Time:	Item #	Topic:	Details:	Action:
11:00	1	Project scope	- Discussed difficulties applying Agile due to dependencies between different parts of the project - Auditor advised that Agile may not suit every aspect of the project and to apply it flexibly where appropriate - Discussed changes to project scope and acceptance tests as requirements have developed - Client was satisfied with current progress before going on leave	
11:10	2	GitHub and individual contributions	- Asked how GitHub contributions are considered when assessing individual work - Auditor clarified that assessment is not based solely on GitHub commits and that other contributions, including documentation etc. are also important - Missing members from GitHub's contributor list should not be an issue	
11:10	3	Minutes	Meeting minutes can be summarised by a team member where necessary (such as when accidentally deleted)	
11:15	4	Documentation and shared folder	Follow the final documentation requirements provided by the unit coordinator - No additional requirements were given by the auditor	Weekly project documentation should be uploaded to the auditor's shared OneDrive folder
11:20	5	Sprint 3 progress	- Sprint 3 roles have been divided between testing and development - GitHub issues are being used to track remaining tasks	
11:25	6	Integration and testing	- Discussed remaining integration work between the project components.	

			- Discussed possible conflicts between gesture control and body mimicking during integration - Christo and Dylan will handle testing - Reviewed the remaining work for person identification	
11:40	7	Meeting end
